## Coastal Hazard Mitigation Workshops

Information, Resources, Land Use Policy, Erosion Control Techniques and Question and Answers

We are pleased to announce a series of free coastal hazard mitigation workshops to introduce and discuss coastal hazard mitigation planning and several new publications. The workshops are suited to the planning community, realtors, development industry, homeowners, and the general public. The newly published, *Hawaii Coastal Hazard Mitigation Guidebook* will be available and a presentation by author Dennis Hwang will explain the scope of the Guidebook and its relationship to the Department of Land and Natural Resources (DLNR) Integrated Shoreline Policy.

In addition, two new documents will be introduced during the workshop:

- *Erosion Management Alternatives for Hawaii* and;
- *Purchasing Coastal Property in Hawaii: A Practical Guide to Common Questions and Answers*.

Both informational documents highlight common coastal hazards and offer alternatives to manage the hazards. Both documents incorporate the conservation concepts of the DLNR's Integrated Shoreline Policy and could be an important component of the county CZM and SMA process.

### Workshop Agenda:

1. State Integrated Shoreline Management Policy (Sam Lemmo- DLNR)
2. Hawaii Coastal Hazard Mitigation Guidebook (Dennis Hwang-Author)
3. Erosion Control and Real Estate Guide (Dolan Eversole UH Sea Grant)
4. Special County Projects (County Staff)
5. Questions/Discussion
